Professor at biological faculty of Al Farabi Kazakh National University (KazNU, Almaty, Kazakhstan). She graduated from KazN University in 2002 (Kazakhstan), then her MSci on Food Sciences in 2003 at Montpellier-II University (France). She achieved her doctorate at CIRAD in Livestock and Veterinary department and at Agro-food department. She got her PhD in 2007 on Food Sciences at Montpellier-II University (Montpellier, France). Title of dissertation is “Physico-chemical and biochemical variability of milk of big Camelidae (*Camelus bactrianus*, *Camelus dromedaries* and *hybrids*) in Kazakhstan”. She participated to many camel conferences and workshops (Turkmenistan, India, Niger, Emirates).

#### **Publications related to Camelid (Last ten years)**
