Professor Ghaleb Alhadrami obtained his Ph. D. in Nutritional Sciences in 1990 from the University of Arizona, United State of America. He is the Dean of the Faculty of Food and Agriculture, United Arab Emirates University since 2007. Also, he served as Assistant Dean for Scientific Research for six years and as Vice-Dean for three years and as chairman of Department of Animal Production from 1994 – 1998 in the Faculty of Food and Agriculture, United Arab Emirates University. Currently he is the Secretary General of Date Palm Friends Society and the chairman of the International Society of Camelid Research and Development. Has over 20 years of research and teaching experience. He is an author of one book and four book chapters. In addition he had authored and co-authored more than 60 scientific research articles in regional and international journals and conferences. Camel nutrition and forage quality are main areas of his research interest.

Publications related to Camelid (Last ten years)
